

Dear Parents,

This year I have created a Shutterfly Share site for our class. Shutterfly is best known for sharing photos. They also have a “share” service specifically for classroom use. Unlike some photo sharing sites, it has the benefit of privacy safeguards. No one can view our site, posts, or photos without an Email Invitation that allows them to join our group.

Along with sharing photos with students, I created this site in order to:

1. Display our hard work. With your permission, I would love to post photos of the work the children are doing. With Shutterfly you will be able to see them in action.
2. Provide information about what the children are learning. I will post informative charts (for example, how to be a good listener) so you can use some of the same language I use in class to reinforce what they are learning at home.

For more information go to <http://www.shutterfly.com/classroom-share/> When you are ready, please fill out the permission slip below.

Thank you,

Mrs. Mascari
